EDUCATION

VTU, BELAGAVI

Bachelor of Technology

Artificial Intelligence and Machine Learning

CGPA – 8.42

Narayana PU college

Senior secondary, Karnataka

Percentage – 87.33

2024- MAY 2028

N.Vaddahalli

March 2022 - April 2024

CAREER OBJECTIVE

AI/ML undergraduate with hands-on experience building full-stack applications using Python, Flask, React, MySQL, and AI APIs. Experienced in developing AI-powered cybersecurity, collaboration, and data analytics solutions through academic projects and hackathons.

PROJECTS

TrustLens AI – AI-Powered Fraud Detection & Digital Trust | Python, Flask, MySQL, Gemini API, REST APIs

March 2026

- Built an AI-powered cybersecurity platform to detect fake jobs, scam messages, phishing links, and fraudulent loan/trading applications.
- Integrated Gemini API for AI-assisted analysis of scam messages, suspicious websites, fake jobs, and financial fraud indicators.
- Implemented RBI & SEBI registration verification, QR/UPI security analysis, app permission analysis, and a dynamic trust score system for evaluating digital threats.
- Designed a responsive security dashboard with scan history, threat visualization, user authentication, and multilingual WhatsApp bot support for improved accessibility

InnovX AI – Student Collaboration & Innovation Ecosystem | React, Vite, Tailwind CSS, Python Flask, MySQL

April 2026

- Built a full-stack platform connecting students with projects, teammates, mentors, and startup opportunities.
- Developed REST APIs using Flask with JWT authentication, role-based authorization, SQLAlchemy, and MySQL.
- Implemented AI-based team matching and project idea generation.
- Built a responsive React interface with search, filtering, profiles, and collaboration features.

Technical Skills

Languages: Python, Java, SQL, HTML, CSS, Julia

AI & APIs: Generative AI, Gemini API, REST APIs

Frameworks: Flask, React, Vite, Tailwind CSS

Database: MySQL, SQLAlchemy

Tools: Git, GitHub, VS Code, Postman

Certifications & Achievement

- **GenAI Powered Data Analytics Job Simulation – Tata | Forage | 2026**
Completed practical tasks involving exploratory data analysis, risk profiling, AI-based delinquency prediction, business reporting, data storytelling, and AI-driven collections strategy
- **Agentic AI: MPC – IBM | 2026**
Completed training in agentic AI concepts, AI agents, Model Context Protocol (MCP), and agent-based workflows.
- **Getting Started with Generative AI – IBM | 2026**
Earned a verified digital credential covering foundational concepts and applications of Generative AI.
- **Bharatiya Antariksh Hackathon 2026 – Certificate of Participation – ISRO & Hack2skill | 2026**
Participated and submitted an innovative solution addressing real-world space challenges as part of the national-level hackathon
